

Student Company Case Study

G1 – The Future Company

Ideas and Opportunities	<p>The original idea came from a student council meeting. They decided on building up a student company, offering school materials at discounted cost so students have no excuse for not having the equipment or stationery needed for lessons.</p>
Resources	<p>A known company to assist, locally based, with a possible interest or self-selection from the sponsor. Physical space to store and sell from. Teacher supervision to help problem solve.</p>
Into Action	<p>Tasks included:</p> <ul style="list-style-type: none"> ● finding sponsorship from a local company to start with a ‘float’ for purchasing ● working out who to be in charge of finance, CEO and workers ● learning quickly of other costs, minimum numbers for buying and the lowest price. <p>Decisions included:</p> <ul style="list-style-type: none"> ● where best to site the stall ● how to exhibit their items - they decided on a cupboard that could be locked outside of trading times.
Next steps/Reflection	<p>The range of the company is increasing monthly, with more products and branches being explored, for example books.</p> <p>Top tips:</p> <ul style="list-style-type: none"> ● Have the right students who will be responsible to set up and can work together, trustworthy, energetic and skilful. Motivated to be caring of others (discounted everyday school stuff isn’t for everyone!)
